Who We Are

FIRST Team 5012 - Gryffingear is a dynamic group of over 40 students, most members in underprivileged neighborhoods, from The Palmdale Aerospace Academy. Having competed since 2014. The members of Gryffingear spend the spring semester of each year designing, building, programming, and operating a proficient robot to compete against other teams from around the world.

What We Do

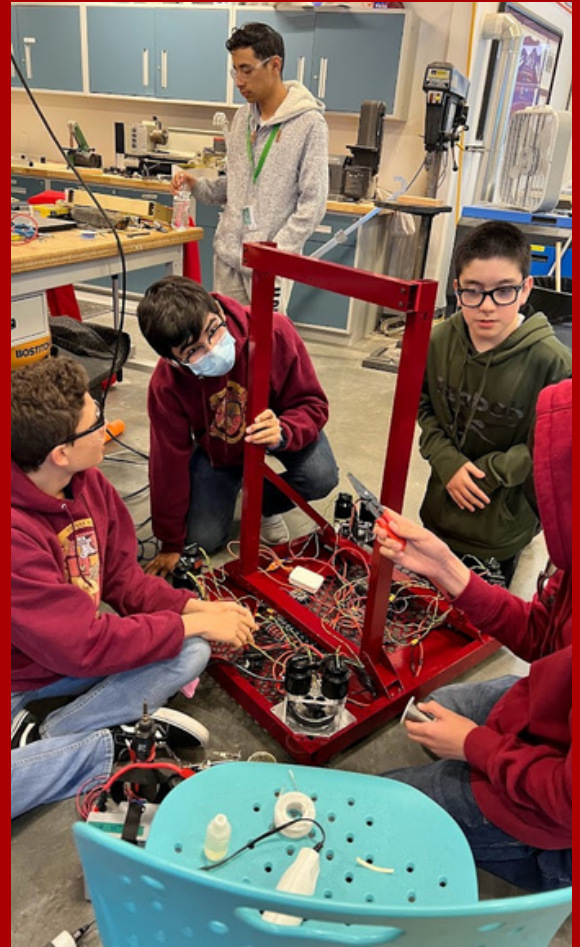

The mission of Team 5012 Gryffingear is to inspire the next generation of STEM and Business Leaders in the Antelope Valley area through outreach events and exceptional performance in FIRST Robotics Competitions. Participation in our team and FIRST(For Inspiration and Recognition of Science and Technology) enables the growth of valuable knowledge in design, programming, wiring, manufacturing, visual design(Imagery), finance, and social media.

Moreover, through our volunteer activities, our members provide demonstrations and hands-on experiences in STEM, robotics, and engineering for children and families. Along with our mission of spreading STEM, we will participate in community clean-up events and our new Robocare program in which we will visit various hospitals and donate STEM robot kits along with letters of encouragement to children who will be hospitalized. Team members contribute at least many hours each year to such outreach programs and invest over 200 hours in developing their own skills through competition and work experience through the creation of the season's robot and management of the team in our robotics shop.

How Sponsors Help Us

Your support allows our team to obtain better equipment to more efficiently build our robot, market our team more professionally and swiftly. Along with that your sponsorship will aid us in the presentability of our team along with training of presentability to our members. The donation received will also be used for registration at events, travel costs, help expand the reach of how we help spread STEM, aid our community, and help us continue to be a team for more years to come.

Why Sponsor Our Team?

The sponsorship of team 5012 Gryffingear would be of promotional and economic value to your company, exposing your name to a wide variety of over 10,000 people at competitions and outreach events along with our website. Our team is committed and it is our mission to bring hope, joy and education in STEM and robotics, along with helping our members learn valuable trades that will aid them in pursuing their dreams in engineering and business. Moreover, 5012 Gryffingear robotics is a non-profit organization and falls under the 501(c)3 status, which means your donation to our cause will be tax deductible. We hope you join us on our mission in aiding our community and making team 5012 Gryffingear a household name.
